HVIT  CLINIC

*Wound care packages*

## BASIC wound care package

£886

One of our nurses will visit you twice at home over the course of two weeks to look after your wound care needs. Your **surgeon** will be updated on both occasions.

This package includes the nurse home visits and all the **material** and equipment needed to look after your wound for two weeks after your surgery.

## INTERMEDIATE wound care package

£1654

This package is suited for wounds that require more intricate care, such as frequent dressing changes.

In this package one of our nurses will come out to your home **three** times over the course of two weeks.

This includes the home visits by a nurse, all the material and equipment needed to look after your wound for two weeks, one **wound swab** and one prescription of **antibiotics**.

## COMPLEX wound care package

£2365

This package is suitable for wounds that are more **complicated** and require more care and re-assessments.

One of our nurses will visit you **five times** over the course of **three weeks** to provide more wound care input. We will liaise with your **surgeon** on each visit, who will oversee your care together with us.

This package includes complex wound care therapy, five nurse homevisits, **material and equipment, two wound swabs** and **antibiotic prescriptions**.

*A Hvit Clinic team member will arrange appointments with you directly, to ensure convenience.*

### Additional optional services:

- Specialist consultant surgeon and physician reviews
- Scar analysis and therapy
- Compression garments

\* T&Cs apply. Please visit our website [hvitclinic.com](http://hvitclinic.com) for more information.

\*\*Our team will be in PPE for your safety whilst making home visits
